

# Drone CaddyApp

**Drone Caddy App Golf Course Partnership Opportunity**

**Rob Friday**

**E - [rob@dronecaddyapp.com](mailto:rob@dronecaddyapp.com) | c - 416-910-7904**

## Concept

- Drone Caddy App is a new technology startup offering amateur golfers an opportunity to view their favorite golf course from a drone fly over from a smart phone app. Just as seen on PGA tour television coverage.
- Golfers download the Drone Caddy App to their smart phone and get instant access to both aerial video footage of each hole and course notes on how to play each hole

[www.dronecaddyapp.com](http://www.dronecaddyapp.com)

## The Offer

- The Drone Caddy App team will fly the course for free, build the app for free and we even provide the course with a revenue share of \$1.00 for each app sale
- Each course gets a custom app to offer to golfers for download, Drone Caddy App charges a small fee (\$5-\$8) directly to the golfer through the app store upon download
- Drone Caddy App makes the traditional course guides obsolete. No more printing course guides or managing inventory.
- Once the custom app is ready, Drone Caddy App provides a welcome package including instructions for course staff to direct golfers to the app store to download the app.
- For about the cost of a PRO V1 golf ball, golfers can view their favorite course like never before.

## The Offer

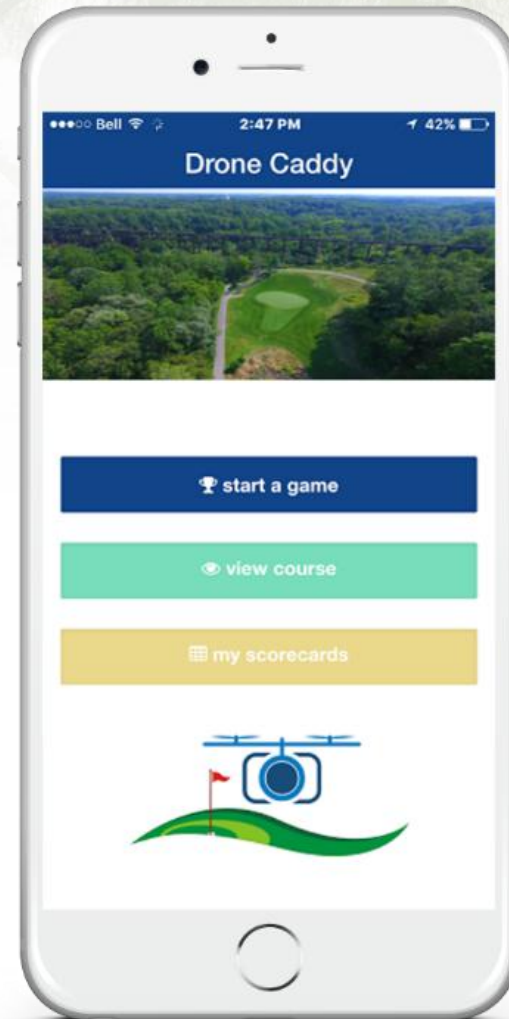

- As an added bonus we will provide up to 20 free aerial photos of your course, shot with our state of the art DJI Phantom 3 camera drone. These are great for your website or clubhouse
- All partner courses are listed with full contact information in the DroneCaddyApp.com course directory and the App Store

# App Screen Shots

- Home Screen
  - Start a Game
  - View Course
  - View Past Score Cards

# App Screen Shots

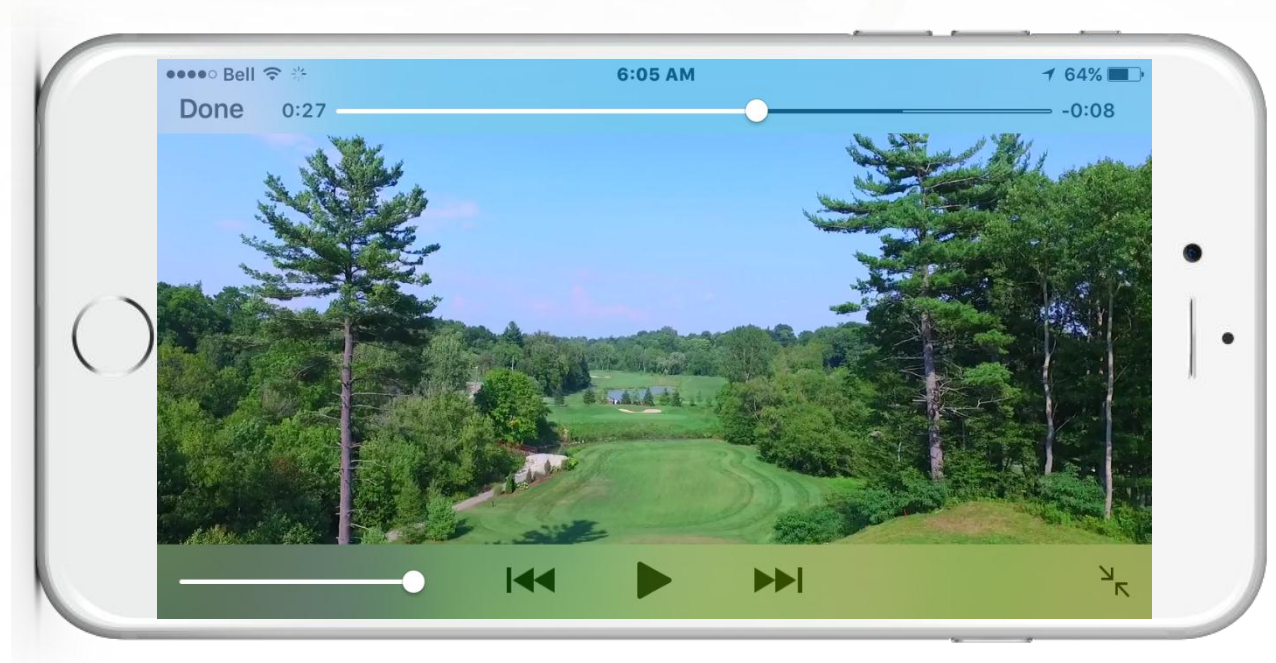

- View Course
  - Play Video
  - View Course Notes

## App Screen Shots

- View each video in HD or Standard Definition
- Play time 15-30 seconds

# Getting Started

- Schedule a time for a Drone Caddy App photographer to video your course
  - Note we do request a golf cart for use while filming the course
  - A typical 18 hole course takes 2-3 hours to film
  - Optional interview with course pro to provide hole notes
- Questions? More Information?
